Creek Camp

Hands-on Environmental Science

Session I July 11-16, 2010

Session II July 18-23, 2010

Creek Camp...

freshwater ecology in the great outdoors!

This is a unique opportunity for rising high school sophomores and juniors—you're the field scientist.

- Hands-on, field-based exploration of topics related to watershed health
- Week-long residence camp at beautiful Allegheny College
- Interact with environmental science and biology college students
- Visit many outdoor locations around the French Creek watershed

Don't miss this opportunity...last year's campers wish they could return!

Hands-on Activities

French Creek	Water Chemistry
Canoeing	Birds
Research Project	Reptiles & Amphibians
Trees	Hiking
Riparian Buffer Zones	Freshwater Mussels
Fish	Agriculture
Macroinvertebrates	Mammals

Complete and submit the online application. Each camp is limited to 12 campers. Apply now!

Lodging in an Allegheny College dormitory, meals, and all necessary scientific equipment are provided. Bring your sense of adventure!

Check in at Allegheny College on Sunday afternoon, move into your dorm room, meet the other campers and get started.

Camp ends on Friday with a closing luncheon for parents. Campers will present their research projects as well as an overview of Creek Camp.

Camp Fee: \$500

\$150 Non-refundable deposit due upon acceptance to camp

\$350 due by June 15

No refund of any kind after June 30
